ACCURA SYSTEMS INC.

300 South Tryon Hotel
Accq-Wall Curtainwall Framing System
Arion-Wall Unitized Curtainwall System

Cooper Carry was the architect for Kimpton's first Charlotte hotel, an 18-story, 217-room hotel at the corner of Third and Church streets. The graceful curves of the façade were designed to contrast with the solid character of the adjacent office tower. A sleek, dimensional curtainwall emphasizes the curves through the shadows that play across the hotel's façade.
