

## Federal Courthouse - Austin

Patriot "S" Unitized Curtainwall

Located in downtown Austin, the courthouse occupies a full city block directly west of Republic Square Park. The square configuration of the site sponsors a highly compact, cubic building form. The stability of the cubic form exemplifies the strength, coherence and dignity of the judicial system. The building has a LEED Silver Certification and has received several awards including the 2016 AIA Academy of Architecture for Justice, Justice Facilities Review Award and the 2016 The Chicago Athenaeum and The European Center American Architecture Award.
