

## Founders Square

Patriot "L" Blast Resistant Unitized Curtainwall System

This 13-story, 353,000 SF Class “A” office building is occupied by the Federal Government’s Defense Advanced Research Projects Agency. The building is certified at the Gold level under the LEED-ND pilot program. Designed to meet the Department of Defense minimum Anti-Terrorism Force Protection standards. The curtainwall units were provided the full width and height of the openings, factory assembled and glazed. The opening design features staggered offset mullions and horizontals.
